(Regulation 2)

FOURTH SCHEDULE
(Regulation 77a)

TRIAL SURVEY

1. A trial survey for a land survey licence shall consist of—
 - (a) a land title survey of an area of land as approved by the Survey Control Board, of at least two boundaries of which shall coincide with or be re-instated from previous surveys and one or more of the boundaries of which shall be a watercourse or other natural feature or irregular road; or
 - (b) a land title survey of an urban area comprising not less than two stands, one of which shall be an irregular figure with substantial buildings encroaching on or closely adjacent to at least one of the boundaries, and all old boundaries shall be redefined on the ground.

2. The surveys required under paragraph 1 shall be co-ordinated on the national grid system so that one of the surveys shall involve fixation of at least one control point by trigonometrical methods.

3. All field work, computations and drawings shall be undertaken by the candidate personally except in the field of survey labour where the candidate may receive assistance.
